PROFILE

Motivated and detail-oriented Frontend Developer with a strong foundation in HTML, CSS, JavaScript, and React.js. Passionate about building responsive, user-friendly web applications and continuously learning modern web technologies. Seeking a Frontend Developer Internship where I can contribute to real-world projects while enhancing my technical and problem-solving skills.

PROJECTS

Student Management System

- Developed a full-stack CRUD application for managing student records.
- Implemented features to add, edit, delete, and search student information.
- Built RESTful APIs using Express.js and connected them with MongoDB.
- Created a responsive frontend and integrated it with the backend.
- Technologies: HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB

Mobile Phone Price Tracker

- Developed a responsive web application to compare mobile phone prices from multiple online retailers.
- Implemented real-time search, filtering, and sorting by brand, price, and specifications.
- Displayed detailed product information, including images, storage variants, ratings, and current prices.
- Built an intuitive and mobile-friendly user interface with reusable React components.
- Integrated external APIs to fetch and display the latest smartphone data and pricing.
- Optimized performance with efficient state management and loading indicators.
- Technologies: React.js, JavaScript (ES6+), HTML5, CSS3/Tailwind CSS, REST API, Axios, Git
